FOR IMMEDIATE RELEASE
October 24, 2022

POLARIS Laboratories® Announces Fluid Analysis Program Champion Awards

Three companies recognized for the 2022 Fluid Analysis Program Champion Awards

INDIANAPOLIS – Annually, POLARIS Laboratories® recognizes three customers for achieving excellence in their fluid analysis programs. Award finalists are chosen based on fluid analysis program performance, sample compliance, team buy-in and continuous program improvement efforts.

Presented during the annual fluid analysis and reliability-focused conference, the 2022 Customer Summit: Mission: Reliability, on October 4, 2022, in Indianapolis – these awards signify program excellence, significant improvement efforts, impactful maintenance actions taken and appreciation of the dedicated work put into the programs.

POLARIS Laboratories® awards NYC Ferry, Operated by Hornblower, as the winner of the 2022 Fluid Analysis Program Champion Award, with The Shelly Company and KnightHawk Coal as award finalists.

Through the company's fluid analysis program and continuous maintenance improvement efforts, NYC Ferry, Operated by Hornblower, has seen a significant increase in component and sample frequency compliance and a decrease in high severity fluid analysis sample reports year over year.
